2. Mahmoud Gamal Abd El-Bar
3. Mahmoud Tarek Khames
4. Mohammed Salama Ragab
5. Mohammed Refai Hussein
6. Youssef Adel Khaled

Project:

- Booking Application.

OR

- PC Builder Simulator.

A detailed summary of the project idea in general:

- Learn Flutter Course to make a code of this program.
- Make Database by using Firebase or SQL server.
- Make GUI to simplify the use of the program for users.
- Make relation between all of this to finish a program.

Some of the alerts:

- We can change the project idea during the allowed period of time.
- We can change team members if we encounter any problems.
